Pollinator Conservation Association Seeks Board Members

The Pollinator Conservation Association is a 501c3 formed in 2016. We currently have three pollinator gardens in progress and approval for a fourth, all on public lands and accessible to the public. Find out more about us at <http://www.pollinatorconservationassociation.org/> We are seeking two new board members to help us with development, finance, and governance. If you are interested in volunteering with us, please email the president, Larry Brooks, at larrybrooks_50@msn.com.

Native Pollinators Harmed by City Beehives

Honeybee specialist Paula Carnell suggests that efforts to put beehives in cities actually harms native pollinators such as solitary bees and bumblebees. Honeybees are not native and their hives persist year-round. Native pollinators must hatch brood and rebuild their colonies each spring, requiring floral resources to provide their energy. Our native plants ha

Funding for EV Charging Stations

Through [Charge Ready NY](#), NYSERDA provides rebates of \$4,000 per charging port for Level 2 charging stations installed at public, workplace, and multi-unit dwelling parking lots. This could add up to a savings of 30% to 80%, depending on station and installation costs. Additional incentives of \$500 per port may be awarded for installations within [disadvantaged communities](#). Most utilities now offer [incentives for installing charging stations](#) that can cover most of the installation costs and can be used in tandem with [New York State](#) and [federal](#) tax credits.

Make Our Enclosure a Reality so We Can Help More Wildlife

WNY Raptor and Wildlife Care, Inc. is fundraising for a new multi-unit enclosure to house injured and orphaned wildlife. WNY Raptor and Wildlife Care, Inc. is a 501 (c)(3) non-profit dedicated to the rehabilitation of wildlife, environmental education, and research. In 2020, we cared for over 150 injured animals and need to expand our current space! Donations can be made on our website <https://wnyraptor.com/enclosure-fundraiser> . More information can be seen on our Facebook Page @wnyraptor or Instagram @wny_raptor.

Rainforest Trees Help Capture Mercury in Mining Areas

Scientists in the Amazon have discovered the highest levels of mercury ever recorded in the canopy of an old-growth rainforest in Peru. The Amazon is in the midst of a highly destructive gold mining boom, fueled by rising gold demand; the precious metal is essential, for example, in high tech. Concentrations of the metal are so high that they rival those of mercury-belching gold mining towns that have spread across the Amazon in the past decade. Meanwhile, birds from the ar
