43 North (named for our geographic latitude) will award \$5 million in cash prizes - including a top prize of \$1 million, six \$500,000 awards and four \$250,000 awards - to the best entrepreneurs, start-ups and teams from around the world. Welcome to Buffalo -- and the richest and most ambitious business idea competition on the planet. Learn more at one of the question and answer sessions in the Buffalo area: **March 6** at 4pm at 701 Ellicott Street and **March 13** at 12:15pm at the Rotary Club of Buffalo meeting at Templeton Landing

During Buffalo's last explosion of industrial entrepreneurship a century ago, giants like John D. Larkin, George Pierce, Willis Carrier, J.R. Oshei and Joseph Dart were innovating, inventing accounting, building automobiles, manufacturing the first air conditioner, designing the first windshield wiper and changing the face of the nation by inventing the grain elevator.

Buffalo is now poised to once again emerge as an entrepreneurial hotbed. More than 200 entries have already been submitted. In addition to the \$5 million in prize money, winners will also receive free office space, mentoring and other business support and incentives. Winners are required to remain in the area for at least one year. Enter the largest business plan competition in the world at [www.43north.org](http://www.43north.org) by **May 31** and encourage others to do so, too.

## **WNY PRISM Funded-Invasive Species Partnerships Now Span New York**

All regions of New York now have a partnership working to combat invasive species at the local and regional level. The recently finalized contract established the final of eight Partnerships for Regional Invasive Species Management (PRISM) in Western New York. Each PRISM is funded by the state Environmental Protection Fund (EPF) and has a full time coordinator. New York's PRISMs are regional private-public partnerships that have diverse memberships, including local and state governments, conservation and trade organizations, academia, landowner associations and interested citizens. The partnerships are focused on shared goals including education and outreach, developing and coordinating volunteer invasive species monitoring programs, and controlling select invasive species in priority locations. The program has an online go-to resource for information ([www.nyis.info](http://www.nyis.info)), an online invasive species database and GIS mapping system ([www.nyimapinvasives.org](http://www.nyimapinvasives.org)) to track invasive species populations and management efforts in the state as well as support for statewide invasive species education and outreach, operated through the Cornell University Cooperative Extension Program.

## **Buffalo's Comprehensive Plan: A Foundation for the Green Code**

The city's development framework begins with [Buffalo's Comprehensive Plan: Queen City in the 21st Century](#). When it was adopted in 2006, Queen City in the 21st Century became our first new Comprehensive Plan in more than 30 years. The Comprehensive Plan is guided by four fundamental principles: fix the basics, build on assets, implement smart growth and embrace sustainability. Queen City in the 21st Century specifically called for creation of a new zoning code to put many of its principles and strategies into action. The Green Code accomplishes that task in two parts. First, it translates the Comprehensive Plan principles into Buffalo's Land Use Plan, which estET73
