## **Wildlife Rehabilitation Course**

Learn how to lend a helping hand and provide proper emergency stabilizing treatment to injured, orphaned, and distressed wildlife living in your community. Hawk Creek Wildlife Center's Fall Wildlife Rehabilitation Course is an intensive eight hour learning experience being offered to the public Saturday and Sunday, **November 8 and 9**, from 12-4pm each day. This course is taught by licensed wildlife rehabilitators sharing over 25 years of real-life experience. The course is open to adults, 16 or older, who are preparing to take the NYSDEC wildlife rehabilitation exam or are just interested in expanding their knowledge. Pre-registration is required. The eight hour course is \$100 per person. To register please visit our [online store](#) or contact Hawk Creek Wildlife Center at [716-652-8646](tel:716-652-8646).

## **Northeast Sustainable Agriculture Working Group Conference: It Takes a Region**

Our 2014 It Takes a Region conference will be held **November 11-12** at the Saratoga Hilton in Saratoga Springs, NY. Pre-conference sessions begin November 10. This year's theme: Region-Sizing: Making it Work! What does it take to make our food system strong, resilient and region-sized? We'll be exploring the various channels, mechanisms, structures and infrastructures for making region-sizing work at NESAWG's 2014 It Takes a Region Conference. Jim Hightower will be a guest speaker. ## **Garden Walk 2015 Beautification Grants**

Applications for Marvin Lunenfeld Beautification Grants are now available from Garden Walk Buffalo, the largest garden walk in the nation. The grants, named for Marvin Lunenfeld, Garden Walk Buffalo's founder, have helped fund dozens of garden beautification projects across the West Side of Buffalo for a total of more than \$50,000 in the last several years. The 2015 [grant application can be found here](#). Completed applications are due **Feb. 17, 2015** with funding awards announced in early spring 2015. Garden Walk Buffalo provides small grants not to exceed \$1,000. Award amounts are based on the overall project cost and the projects are required to include matching funds from government, private contributions or volunteer sweat equity. [See eligibility criteria for the grants here](#).

## **Yearning to Write about Environmental Issues?**

The Sierra Club is setting up a Climate and Clean Energy Writers Group to encourage a stronger voice for local advocates in the regional dialogue on climate change and renewables. The group meets monthly to hear a short presentation on a relevant topic, discuss energy related news, letters and articles, and encourage each other to write for publication on topics of interest. We are seeking writers of all ages and are very interested in getting the word out via various media, including print and the internet. If you would like to write, critique writing, or track local news items, please join us by contacting [bill.nowakcwa@gmail.com](mailto:bill.nowakcwa@gmail.com).

## **Coyotes in our Backyards-**

**Sunday, November 23**

**Vegan Thanksgiving Gathering**-Sponsored by the Animal Advocates of WNY at 5:30 p.m., at the Unitarian Universalist Church of Amherst, 6320 Main Street, Williamsville (on Main St. just east of Youngs Rd., across from ECC North Campus). Following the dinner, Walter Simpson will provide a brief update on the latest developments on climate change and efforts to combat it. Suggested donation for the dinner for adults is \$5 and \$2 children 10 and younger, students, and seniors.

The simple alternative is to buy clothing and other fabric items that do not require dry cleaning, thus saving you money and protecting your health and the environment. Many clothes that are dry-cleaned could be washed by hand or in a washing machine's gentle cycle. Wool, cashmere, angora, and silk can be gently hand-washed with a mild soap in warm water

There is a rise in "green" dry cleaning businesses. Have a conversation with your regular dry cleaning company and see if they have made changes in their cleaning process. According to the local lists of dry cleaners in the Buffalo area only one does not use chemicals - Colvin Cleaners 2375 Elmwood Ave. Kenmore NY. If you know of others please let me know and I will mention them in my next article.

**Laundry Products:** Many conventional laundry products contain a range of chemicals that trigger skin and eye irritation, cause allergic reactions and asthma, damage the environment, and may have harmful long-term effects. Look for **natural** components in your green laundry products.

**Alternatives to Bleach:** Instead of chlorine bleach, try hydrogen peroxide, which breaks down into water and oxygen, or use sodium percarbonate by combining hydrogen peroxide with the nontoxic mineral sodium carbonate—they both brighten whites as effectively as chlorine. Chlorine irritates the lungs, eyes, and mucous membranes. Even at very low concentrations, bleach can cause respiratory disorders, asthma attacks, and even neurological and behavioral effects. A little splash on your skin lets you know immediately how toxic bleach can be.

**Liquid fabric softeners:** Keep it out of the wastewater stream by replacing it with a quarter-cup to a cup of white vinegar, which leaves your clothing soft and doesn't leave behind any odor. The chemicals that give fabric softeners, and dryer sheets their "fresh" scent are synthesized from petroleum and can irritate skin, cause allergic reactions, trigger asthma, and harm the nervous system. Look for products that use natural essential oils and citrus oils.

**Read the labels in detail** and choose an environmentally friendly product. By making careful choices we can improve the quality of our lives and future generations.

Thanksgiving reminds us to be thankful every day for the blessings in our lives. This year, as you plan your holiday meal, keep two words in mind: **organic** and **local**. These keywords will guarantee a healthier, more nutritious meal.

Going green on Thanksgiving does not have to be complicated. This celebration is an opportunity to get the whole family involved in a green lifestyle

Buying local ensures 1) that more of the money spent on food goes to the local farmer; 2) also keeps your dollars circulating in your own community; and 3) cuts down on the distance that food travels thus reducing the consumption of oil and carbon emissions nationwide.

Have you ever considered the distance that many vegetables may travel? **Read the label** –A bag of carrots transported to Buffalo NY from Los Angeles, CA, 2,537 miles away. Their transport uses a large amount of fuel which is polluting the air.

Traditional recipes typically rely on food that's in season; you will find everything you need in the way of butternut squash, sweet potatoes, yams, apples, pears, spices and a variety of greens that are all readily available at this time of year. The benefits of buying organic are obvious (no pesticides or herbicides).

Where do turkeys come from? They are indigenous to North America, but today's turkeys are deficient in one glaring way: they cannot reproduce and have been bred to produce the most meat at the least cost. Turkeys are now dependent on human intervention to fertilize their eggs. Heritage turkeys, in contrast, mate naturally, live outdoors and grow slowly. When buying your traditional turkey check your local farms. Make sure that no hormones or antibiotics have been pumped into the bird. Also, ask if it is range free, if the answer is yes then order a fresh turkey to be pic82

Liven up your Thanksgiving gathering by adding a few decorative touches. Purchase a tablecloth and cloth napkins of a seasonal color, which can be washed and **reused** for years to come. By using china, silverware and glasses you do not have to dispose of paper plates and utensils thus **reducing** waste in landfills. Get the children to help decorate by collecting pine cones and acorns and put them in a clear glass bowl to make a beautiful centerpiece.

After you have enjoyed your meal and guests are relaxing in the living room try the following conversation starter. Think of different questions to ask each person. For example what does Thanksgiving mean to them? What are they thankful for? What's their favorite memory or funny story about Thanksgiving? It is amazing what one can learn about people that we have known for years and children will learn more about their family traditions.

Just a thought: Don't assume that all of your friends and acquaintances have been invited to a Thanksgiving celebration. Holidays can be a very lonely time for many who do not live near family, or for whatever reason are estranged from them. If you are not sure, extend the invitation anyway. Many people are alone at this time of year.

Teach your children by example how to care for the environment by **reusing, recycling** and avoiding waste. Living a green existence is painless with the right perspective and attitude.

Don't forget – "Together we can make a difference."
